

# SAFETY DATA SHEET

New Zealand

## Section 1. Identification

Product name

**Reagent B; part of 'Cytell™ Cell Viability Kit'**

Catalogue Number

29057496

Other means of identification

Not available.

Product type

Liquid.

Identified uses

Use in laboratories

### Supplier

Cytiva  
Amersham Place  
Little Chalfont  
Buckinghamshire  
HP7 9NA United Kingdom  
+44 0800 515 313

Cytiva New Zealand  
Buddle Findlay, Level 18, Pricewaterhousecooper Tower,  
188 Quay Street,  
Auckland, Auckland, 1010  
New Zealand

Person who prepared the MSDS :

sds\_author@cytiva.com

Emergency telephone number (with hours of operation)

0800 733 893  
(10am - 7pm)

## Section 2. Hazards identification

HSNO Classification

Not classified.

This material is not classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001.

### GHS label elements

Signal word

No signal word.

Hazard statements

No known significant effects or critical hazards.

### Precautionary statements

Prevention

Not applicable.

Response

Not applicable.

Storage

Not applicable.

Disposal

Not applicable.

Other hazards which do not result in classification

None known.

## Section 3. Composition/information on ingredients

Substance/mixture

Mixture

Other means of identification

Not available.

### CAS number/other identifiers

CAS number

Not applicable.

EC number

Mixture.

Product code

29057496

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

|                     |   |
|---------------------|---|
| <b>Inhalation</b>   | If inhaled, remove to fresh air. Get medical attention if symptoms appear.  |
| <b>Ingestion</b>    | Do not ingest. Get medical attention if symptoms appear. If potentially dangerous quantities of this material have been swallowed, call a physician immediately.                    |
| <b>Skin contact</b> | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.  |
| <b>Eye contact</b>  | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

|                     |   |
|---------------------|---|
| <b>Inhalation</b>   | No known significant effects or critical hazards. |
| <b>Ingestion</b>    | No known significant effects or critical hazards. |
| <b>Skin contact</b> | No known significant effects or critical hazards. |
| <b>Eye contact</b>  | No known significant effects or critical hazards. |

#### Over-exposure signs/symptoms

|                   |                   |
|-------------------|-------------------|
| <b>Inhalation</b> | No specific data. |
| <b>Ingestion</b>  | No specific data. |
| <b>Skin</b>       | No specific data. |
| <b>Eyes</b>       | No specific data. |

### Indication of immediate medical attention and special treatment needed, if necessary

|                                   |  |
|-----------------------------------|--|
| <b>Specific treatments</b>        | Not available.   |
| <b>Notes to physician</b>         | No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| <b>Protection of first-aiders</b> | No action shall be taken involving any personal risk or without suitable training.   |

See toxicological information (Section 11)

## Section 5. Firefighting measures

### Extinguishing media

|   |   |
|---|---|
| <b>Suitable</b>                                       | Use an extinguishing agent suitable for the surrounding fire.   |
| <b>Not suitable</b>                                   | None known.   |
| <b>Specific hazards arising from the chemical</b>     | In a fire or if heated, a pressure increase will occur and the container may burst.   |
| <b>Hazardous thermal decomposition products</b>       | No specific data.   |
| <b>Hazchem code</b>                                   | Not available.  |
| <b>Special precautions for fire-fighters</b>          | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| <b>Special protective equipment for fire-fighters</b> | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.                         |

## Section 6. Accidental release measures

|  |   |
|--|---|
| <b>Personal precautions, protective equipment and emergency procedures</b> | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment (see Section 8). |
| <b>Environmental precautions</b>   | Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).   |

### Methods and material for containment and cleaning up

|                    |  |
|--------------------|--|
| <b>Small spill</b> | Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| <b>Large spill</b> | Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

## Section 7. Handling and storage

|   |   |
|---|---|
| <b>Precautions for safe handling</b>                                | Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.  |
| <b>Conditions for safe storage, including any incompatibilities</b> | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

## Section 8. Exposure controls/personal protection

### Control parameters

#### Occupational exposure limits

None.

|   |   |
|---|---|
| <b>Appropriate engineering controls</b> | No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits. |
| <b>Environmental exposure controls</b>  | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.                                  |

### Individual protection measures

|                               |   |
|-------------------------------|---|
| <b>Hygiene measures</b>       | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| <b>Respiratory protection</b> | A respirator is not needed under normal and intended conditions of product use.   |
| <b>Hand protection</b>        | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.   |
| <b>Eye protection</b>         | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.                                 |
| <b>Skin protection</b>        | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |

## Section 9. Physical and chemical properties

### Appearance

|   |  |
|---|--|
| <b>Physical state</b>                               | Liquid.  |
| <b>Colour</b>                                       | Red.   |
| <b>Odour</b>  | Odourless.   |
| <b>Odour threshold</b>                              | Not available.   |
| <b>pH</b>   | Not available.   |
| <b>Melting point</b>                                | 0°C (32°F)   |
| <b>Boiling point</b>                                | 100°C (212°F)  |
| <b>Flash point</b>                                  | Not applicable.  |
| <b>Burning rate</b>                                 | Not applicable.  |
| <b>Burning time</b>                                 | Not applicable.  |
| <b>Evaporation rate</b>                             | Not available.   |
| <b>Flammability (solid, gas)</b>                    | Not available.   |
| <b>Lower and upper explosive (flammable) limits</b> | Not available.   |
| <b>Vapour pressure</b>                              | Not available.   |
| <b>Vapour density</b>                               | Not available.   |
| <b>Relative density</b>                             | Not available.   |
| <b>Solubility</b>                                   | Easily soluble in the following materials: cold water and hot water. |
| <b>Solubility in water</b>                          | Not available.   |
| <b>Partition coefficient: n-octanol/ water</b>      | Not available.   |

|   |                 |
|---|-----------------|
| <b>Auto-ignition temperature</b>                      | Not available.  |
| <b>Decomposition temperature</b>                      | Not available.  |
| <b>SADT</b>   | Not available.  |
| <b>Viscosity</b>                                      | Not available.  |
| <b>Flow time (ISO 2431)</b>                           | Not available.  |
| <b><u>Aerosol product</u></b>                         |                 |
| <b>Type of aerosol</b>                                | Not applicable. |
| <b>Heat of combustion</b>                             | Not available.  |
| <b>Ignition distance</b>                              | Not applicable. |
| <b>Enclosed space ignition - Time equivalent</b>      | Not applicable. |
| <b>Enclosed space ignition - Deflagration density</b> | Not applicable. |
| <b>Flame height</b>                                   | Not applicable. |
| <b>Flame duration</b>                                 | Not applicable. |

## Section 10. Stability and reactivity

|   |  |
|---|--|
| <b>Chemical stability</b>                 | The product is stable.   |
| <b>Possibility of hazardous reactions</b> | Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| <b>Conditions to avoid</b>                | No specific data.  |
| <b>Incompatible materials</b>             | No specific data.  |
| <b>Hazardous decomposition products</b>   | Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicological information

### Information on likely routes of exposure

|                     |   |
|---------------------|---|
| <b>Inhalation</b>   | No known significant effects or critical hazards. |
| <b>Ingestion</b>    | No known significant effects or critical hazards. |
| <b>Skin contact</b> | No known significant effects or critical hazards. |
| <b>Eye contact</b>  | No known significant effects or critical hazards. |

### Symptoms related to the physical, chemical and toxicological characteristics

|                     |                   |
|---------------------|-------------------|
| <b>Inhalation</b>   | No specific data. |
| <b>Ingestion</b>    | No specific data. |
| <b>Skin contact</b> | No specific data. |
| <b>Eye contact</b>  | No specific data. |

### Delayed and immediate effects as well as chronic effects from short and long-term exposure

#### Acute toxicity

Not available.

#### Irritation/Corrosion

Not available.

#### Sensitisation

Not available.

### Potential chronic health effects

|                        |   |
|------------------------|---|
| <b>General</b>         | No known significant effects or critical hazards. |
| <b>Inhalation</b>      | No known significant effects or critical hazards. |
| <b>Ingestion</b>       | No known significant effects or critical hazards. |
| <b>Skin contact</b>    | No known significant effects or critical hazards. |
| <b>Eye contact</b>     | No known significant effects or critical hazards. |
| <b>Carcinogenicity</b> | No known significant effects or critical hazards. |
| <b>Mutagenicity</b>    | No known significant effects or critical hazards. |
| <b>Teratogenicity</b>  | No known significant effects or critical hazards. |

**Developmental effects** No known significant effects or critical hazards.

**Fertility effects** No known significant effects or critical hazards.

**Chronic toxicity**

Not available.

**Carcinogenicity**

Not available.

**Mutagenicity**

Not available.

**Teratogenicity**

Not available.

**Reproductive toxicity**

Not available.

**Specific target organ toxicity**

Not available.

**Aspiration hazard**

Not available.

**Numerical measures of toxicity**

**Acute toxicity estimates**

Not available.

## Section 12. Ecological information

**Ecotoxicity** No known significant effects or critical hazards.

**Aquatic and terrestrial toxicity**

Not available.

**Persistence/degradability**

Not available.

**Bioaccumulative potential**

Not available.

**Mobility in soil**

**Soil/water partition coefficient (K<sub>oc</sub>)** Not available.

**Other adverse effects** No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

| Regulatory information | UN number      | Proper shipping name | Classes | PG* |
|------------------------|----------------|----------------------|---------|-----|
| New Zealand Class      | Not regulated. | -                    | -       | -   |
|                        |                | No.                  |         |     |
| IATA Class             | Not regulated. | -                    | -       | -   |
|                        |                | -                    |         |     |
|                        |                | No.                  |         |     |

|            |                |   |   |   |
|------------|----------------|---|---|---|
| IMDG Class | Not regulated. | - | - | - |
|------------|----------------|---|---|---|

No.

PG\* : Packing group

|   |   |
|---|---|
| <b>Special precautions for user</b>                                       | <b>Transport within user's premises:</b> always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage. |
| <b>Transport in bulk according to Annex II of Marpol and the IBC Code</b> | Not available.  |

## Section 15. Regulatory information

|                             |                                       |
|-----------------------------|---------------------------------------|
| <b>HSNO Approval Number</b> | HSR002596                             |
| <b>HSNO Group Standard</b>  | Laboratory Chemicals and Reagent Kits |
| <b>HSNO Classification</b>  | Not classified.                       |

### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### Montreal Protocol (Annexes A, B, C, E)

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

### Inventory list

|                         |  |
|-------------------------|--|
| <b>New Zealand</b>      | All components are listed or exempted.   |
| <b>Australia</b>        | Not determined.  |
| <b>Europe</b>           | All components are listed or exempted.   |
| <b>United States</b>    | Not determined.  |
| <b>Canada inventory</b> | Not determined.  |
| <b>China</b>            | All components are listed or exempted.   |
| <b>Japan</b>            | <b>Japan inventory (ENCS):</b> Not determined.<br><b>Japan inventory (ISHL):</b> Not determined. |
| <b>Malaysia</b>         | Not determined   |
