

# Safety Data Sheet

Australia

## Section 1. Identification

**Product name** AOG 412; part of 'Demo and training kit small molecules'

**Catalogue Number** 22-0618-61

**Chemical product name** ☒ Disodium 6-(acetylamino)-3-[[4-(aminosulphonyl)phenyl]azo]-4-hydroxynaphthalene-2,7-disulphonate  
**Synonyms** ☒ 2,7-Naphthalenedisulfonic acid, 6-(acetylamino)-3-[[4-(aminosulfonyl)phenyl]azo]-4-hydroxy-, disodium salt; disodium 6-acetamido-4-hydroxy-3-(4-sulfamoylphenylazo)naphthalene-2,7-disulfonate; azosulfamide; 6-(Acetylamino)-3-[[4-(aminosulfonyl)phenyl]azo]-4-hydroxy-2,7-naphthalene disulfonic acid, Disodium salt  
**Product type** Solid.

### Relevant identified uses of the substance or mixture and uses advised against

#### **Identified uses**

☒ Analytical chemistry.  
 Use in laboratories  
 Scientific research and development

### Company details

#### **Manufacturer**

GE Healthcare UK Ltd  
 Amersham Place  
 Little Chalfont  
 Buckinghamshire HP7 9NA  
 England  
 +44 0870 606 1921

#### **Supplier**

GE Healthcare Australia  
 Level 11, 32 Phillip Street  
 Parramatta NSW 2150  
 Australia  
 1800 150 522

**Emergency telephone number** 000 and +61 2 9846 4000

## Section 2. Hazard(s) identification

**Classification of the substance or mixture** ☒ Not classified.

### GHS label elements

**Signal word** ☒ No signal word.  
**Hazard statements** ☒ No known significant effects or critical hazards.  
**Precautionary statements**  
**Prevention** ☒ Not applicable.  
**Response** ☒ Not applicable.  
**Storage** ☒ Not applicable.  
**Disposal** ☒ Not applicable.  
**Supplemental label elements** ☒ Not applicable.

**Other hazards which do not result in classification** ☒ None known.

Article Number

22061861-3

Validation date 8 January 2018

Version 4

## Section 3. Composition and ingredient information

<b>Substance/mixture</b>	<input checked="" type="checkbox"/> Substance
<b>Chemical identity</b>	<input checked="" type="checkbox"/> disodium 6-(acetylamino)-3-[[4-(aminosulphonyl)phenyl]azo]-4-hydroxynaphthalene-2,7-disulphonate
<b>Other means of identification</b>	<input checked="" type="checkbox"/> 2,7-Naphthalenedisulfonic acid, 6-(acetylamino)-3-[[4-(aminosulfonyl)phenyl]azo]-4-hydroxy-, disodium salt; disodium 6-acetamido-4-hydroxy-3-(4-sulfamoylphenylazo)naphthalene-2,7-disulfonate; azosulfamide; 6-(Acetylamino)-3-[[4-(aminosulfonyl)phenyl]azo]-4-hydroxy-2,7-naphthalene disulfonic acid, Disodium salt

### CAS number/other identifiers

<b>CAS number</b>	<input checked="" type="checkbox"/> 133-60-8
<b>EC number</b>	<input checked="" type="checkbox"/> 205-114-6

<b>Ingredient name</b>	<b>% (w/w)</b>	<b>CAS number</b>
<input checked="" type="checkbox"/> disodium 6-(acetylamino)-3-[[4-(aminosulphonyl)phenyl]azo]-4-hydroxynaphthalene-2,7-disulphonate	100	133-60-8

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

### Description of necessary first aid measures

<b>Eye contact</b>	<input checked="" type="checkbox"/> Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
<b>Inhalation</b>	<input checked="" type="checkbox"/> Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
<b>Skin contact</b>	<input checked="" type="checkbox"/> Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
<b>Ingestion</b>	<input checked="" type="checkbox"/> Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

### Most important symptoms/effects, acute and delayed

#### Potential acute health effects

<b>Eye contact</b>	<input checked="" type="checkbox"/> No known significant effects or critical hazards.
<b>Inhalation</b>	<input checked="" type="checkbox"/> No known significant effects or critical hazards.
<b>Skin contact</b>	<input checked="" type="checkbox"/> No known significant effects or critical hazards.
<b>Ingestion</b>	<input checked="" type="checkbox"/> No known significant effects or critical hazards.

#### Over-exposure signs/symptoms

<b>Eye contact</b>	<input checked="" type="checkbox"/> No specific data.
<b>Inhalation</b>	<input checked="" type="checkbox"/> No specific data.
<b>Skin contact</b>	<input checked="" type="checkbox"/> No specific data.
<b>Ingestion</b>	<input checked="" type="checkbox"/> No specific data.

### Indication of immediate medical attention and special treatment needed, if necessary

<b>Notes to physician</b>	<input checked="" type="checkbox"/> In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
<b>Specific treatments</b>	<input checked="" type="checkbox"/> No specific treatment.
<b>Protection of first-aiders</b>	<input checked="" type="checkbox"/> No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

## Section 5. Firefighting measures

### Extinguishing media

- Suitable extinguishing media** ☒ Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** ☒ None known.

**Specific hazards arising from the chemical** ☒ No specific fire or explosion hazard.

**Hazardous thermal decomposition products** ☒ Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide  
nitrogen oxides

**Special protective actions for fire-fighters** ☒ Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special protective equipment for fire-fighters** ☒ Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

### Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** ☒ No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.
- For emergency responders** ☒ If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

**Environmental precautions** ☒ Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

### Methods and material for containment and cleaning up

- Small spill** ☒ Move containers from spill area. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor.
- Large spill** ☒ Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

### Precautions for safe handling

- Protective measures** ☒ Put on appropriate personal protective equipment (see Section 8).
- Advice on general occupational hygiene** ☒ Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

**Conditions for safe storage, including any incompatibilities** ☒ Store between the following temperatures: 4 to 8°C (39.2 to 46.4°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

## Section 8. Exposure controls and personal protection

### Control parameters

#### Occupational exposure limits

None.

**Appropriate engineering controls** ☒ Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

**Environmental exposure controls** ☒ Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

### Individual protection measures

<b>Hygiene measures</b>	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
<b>Eye/face protection</b>	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
<b>Skin protection</b>	
<b>Hand protection</b>	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
<b>Body protection</b>	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
<b>Other skin protection</b>	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
<b>Respiratory protection</b>	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

### Appearance

<b>Physical state</b>	Solid.
<b>Flash point</b>	[Product does not sustain combustion.]
<b>Flammability (solid, gas)</b>	Not available.
<b>Partition coefficient: n-octanol/water</b>	Not available.
<b>Decomposition temperature</b>	Not available.
<b>Flow time (ISO 2431)</b>	Not available.

### Aerosol product

<b>Flame duration</b>	Not applicable.
-----------------------	-----------------

## Section 10. Stability and reactivity

<b>Reactivity</b>	No specific test data related to reactivity available for this product or its ingredients.
<b>Chemical stability</b>	The product is stable.
<b>Possibility of hazardous reactions</b>	Under normal conditions of storage and use, hazardous reactions will not occur.
<b>Conditions to avoid</b>	No specific data.
<b>Incompatible materials</b>	No specific data.
<b>Hazardous decomposition products</b>	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

### Information on toxicological effects

#### Acute toxicity

Not available.

#### Irritation/Corrosion

Not available.

#### Sensitisation

Not available.

#### Mutagenicity

Not available.

#### Carcinogenicity

Not available.

#### Reproductive toxicity

Not available.

#### Teratogenicity

Not available.

**Specific target organ toxicity (single exposure)**

Not available.

**Specific target organ toxicity (repeated exposure)**

Not available.

**Aspiration hazard**

Not available.

**Information on likely routes of exposure**

Routes of entry anticipated: Oral, Dermal, Inhalation.

**Potential acute health effects**

Eye contact	No known significant effects or critical hazards.
Inhalation	No known significant effects or critical hazards.
Skin contact	No known significant effects or critical hazards.
Ingestion	No known significant effects or critical hazards.

**Symptoms related to the physical, chemical and toxicological characteristics**

Eye contact	No specific data.
Inhalation	No specific data.
Skin contact	No specific data.
Ingestion	No specific data.

**Delayed and immediate effects as well as chronic effects from short and long-term exposure****Short term exposure**

Potential immediate effects	Not available.
Potential delayed effects	Not available.

**Long term exposure**

Potential immediate effects	Not available.
Potential delayed effects	Not available.

**Potential chronic health effects**

Not available.

General	No known significant effects or critical hazards.
Carcinogenicity	No known significant effects or critical hazards.
Mutagenicity	No known significant effects or critical hazards.
Teratogenicity	No known significant effects or critical hazards.
Developmental effects	No known significant effects or critical hazards.
Fertility effects	No known significant effects or critical hazards.

**Numerical measures of toxicity****Acute toxicity estimates**

Not available.

**Section 12. Ecological information****Toxicity**

Product/ingredient name	Result	Species	Exposure
Disodium 6-(acetylamino)-3-[[4-(aminosulphonyl)phenyl]azo]-4-hydroxynaphthalene-2,7-disulphonate	Acute EC50 28930 µg/l Fresh water	Algae - Pseudokirchneriella subcapitata	96 hours

**Persistence and degradability**

Not available.

**Bioaccumulative potential**

Not available.

**Mobility in soil**

Soil/water partition coefficient (K<sub>oc</sub>) ☒ Not available.

Other adverse effects ☒ No known significant effects or critical hazards.

Section 13. Disposal considerations

**Disposal methods** ☒ The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

	ADG	ADR/RID	IMDG	IATA
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.
Proper shipping name	-	-	-	-
Class	-	-	-	-
Label				
PG	-	-	-	-
Environmental hazards	<input checked="" type="checkbox"/> No.	<input checked="" type="checkbox"/> No.	<input checked="" type="checkbox"/> No.	<input checked="" type="checkbox"/> No.
Additional information	-	-	-	-
Special precautions for user	<input checked="" type="checkbox"/> <b>Transport within user's premises:</b> always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.			
Transport in bulk according to Annex II of Marpol and the IBC Code	Not available.			

Section 15. Regulatory information

**Standard Uniform Schedule of Medicine and Poisons**

☒ Not regulated.

**Model Work Health and Safety Regulations - Scheduled Substances**

No listed substance

**International regulations**

**Chemical Weapon Convention List Schedules I, II & III Chemicals**

Not listed.

**Montreal Protocol (Annexes A, B, C, E)**

Not listed.

**Stockholm Convention on Persistent Organic Pollutants**

Not listed.

**Rotterdam Convention on Prior Informed Consent (PIC)**

Not listed.

**UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

**Inventory list**

Australia ☒ Not determined.  
Europe ☒ This material is listed or exempted.  
United States ☒ Not determined.

Canada inventory	 This material is listed or exempted.
China	 Not determined.
Japan	 <b>Japan inventory (ENCS):</b> Not determined. <b>Japan inventory (ISHL):</b> Not determined.
Malaysia	 Not determined.
New Zealand	 Not determined.
