# GF Healthcare

# **SAFETY DATA SHEET**

New Zealand

Section 1. Identification

**Product name** Hybond<sup>™</sup> P (14 x 16 cm), 15 sheets

Catalogue Number RPN1416F

Not available. Other means of identification Product type Solid.

Identified uses

Analytical chemistry. Laboratory chemicals Research and Development

Supplier

GE Healthcare UK Ltd GE Healthcare Bio-Sciences Amersham Place 8 Tangihua Street Little Chalfont Auckland 1010

Buckinghamshire HP7 9NA England

+44 0870 606 1921

Emergency telephone number (with hours of operation) Person who prepared the MSDS:

(10am - 7pm)

Section 2. Hazards identification

Not classified. **HSNO Classification** 

This material is not classified as hazardous according to criteria in the Hazardous Substances (Minimum Degrees of Hazard) Regulations 2001.

**GHS label elements** 

Signal word No signal word.

**Hazard statements** No known significant effects or critical hazards.

**Precautionary statements** 

Not applicable. Prevention Response Not applicable. Not applicable. Storage Not applicable. Disposal Other hazards which do not result in Not available.

classification

Section 3. Composition/information on ingredients

Substance/mixture Substance Other means of identification Not available.

CAS number/other identifiers

CAS number Not available. EC number Not available. RPN1416F Product code

Ingredient name % CAS number

Hybond P GROUP 100

Article Number 25800035

Validation date 26 April 2011

Version 0.9

Page: 1/6

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

#### Occupational exposure limits, if available, are listed in Section 8.

#### Section 4. First aid measures

#### Description of necessary first aid measures

**Inhalation** If inhaled, remove to fresh air. Get medical attention if symptoms appear.

**Ingestion** Do not ingest. Get medical attention if symptoms appear.

**Skin contact** Wash with soap and water. Get medical attention if irritation develops.

Eye contact Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for

and remove any contact lenses. Get medical attention if irritation occurs.

#### Most important symptoms/effects, acute and delayed

# Potential acute health effects

InhalationNo known significant effects or critical hazards.IngestionNo known significant effects or critical hazards.Skin contactNo known significant effects or critical hazards.Eye contactNo known significant effects or critical hazards.

Over-exposure signs/symptoms

InhalationNo specific data.IngestionNo specific data.SkinNo specific data.EyesNo specific data.

#### Indication of immediate medical attention and special treatment needed, if necessary

**Specific treatments** Not available.

Notes to physician No specific treatment. Treat symptomatically. Contact poison treatment specialist immediately if large

quantities have been ingested or inhaled.

**Protection of first-aiders**No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

# Section 5. Fire-fighting measures

#### Extinguishing media

**Suitable** Use an extinguishing agent suitable for the surrounding fire.

Not suitable None known.

Specific hazards arising from the

chemical

No specific fire or explosion hazard.

Hazardous thermal decomposition

products

No specific data.

Hazchem code Not available

Special precautions for fire-fighters Pron

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No

action shall be taken involving any personal risk or without suitable training.

Special protective equipment for

fire-fighters

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus

(SCBA) with a full face-piece operated in positive pressure mode.

#### Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment (see Section 8).

Environmental precautions

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Methods and materials for containment and cleaning up

Small spillPick up solids and put in an appropriate sealable container for later disposal.Large spillPick up solids and put in an appropriate sealable container for later disposal.

Article Number

25800035

Page: 2/6

# Section 7. Handling and storage

Precautions for safe handling

Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas.

Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

### Section 8. Exposure controls/personal protection

#### **Control parameters**

#### Occupational exposure limits

None.

Recommended monitoring

procedures

Product does not contain relevant quantities of materials with exposure values that have to be

monitored

Appropriate engineering controls No special ventilation requirements. Good general ventilation should be sufficient to control worker

exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any

recommended or statutory limits.

Environmental exposure controls Emissions from ventilation or work process equipment should be checked to ensure they comply with the

requirements of environmental protection legislation. In some cases, fume scrubbers, filters or

engineering modifications to the process equipment will be necessary to reduce emissions to acceptable

levels

**Individual protection measures** 

Hygiene measures Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking

and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that

eyewash stations and safety showers are close to the workstation location.

**Respiratory protection** A respirator is not needed under normal and intended conditions of product use.

Hand protection Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times

when handling chemical products if a risk assessment indicates this is necessary.

**Eye protection** Safety eyewear complying with an approved standard should be used when a risk assessment indicates

this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

**Skin protection** Personal protective equipment for the body should be selected based on the task being performed and

the risks involved and should be approved by a specialist before handling this product.

# Section 9. Physical and chemical properties

#### **Appearance**

Physical state Solid.
Color White.

Odor Not available Not available. Odor threshold рΗ Not applicable. Not available. Melting point Not available. **Boiling point** Flash point Not applicable. Not available **Burning rate** Not available. **Burning time** Not applicable. **Evaporation rate** Flammability (solid, gas) Not available

Lower and upper explosive

(flammable) limits

Not available.

Vapor pressureNot available.Vapor densityNot available.Relative densityNot available.

**Solubility** Insoluble in the following materials: cold water and hot water.

Article Number Page: 3/6

Partition coefficient: n-

octanol/water

Not available.

Auto-ignition temperatureNot available.Decomposition temperatureNot available.SADTNot available.ViscosityNot available.

Aerosol product

Type of aerosol Not applicable.

Heat of combustion Not available.

Ignition distance Not applicable.

Enclosed space ignition - Time Not applicable.

equivalent

Enclosed space ignition -

Deflagration density

Not applicable.

Flame height Not applicable.
Flame duration Not applicable.

# Section 10. Stability and reactivity

**Chemical stability** The product is stable.

Possibility of hazardous reactions Under normal conditions of storage and use, hazardous reactions will not occur.

Conditions to avoid No specific data.

Incompatible materials No specific data.

# Section 11. Toxicological information

### Information on the likely routes of exposure

InhalationNo known significant effects or critical hazards.IngestionNo known significant effects or critical hazards.Skin contactNo known significant effects or critical hazards.Eye contactNo known significant effects or critical hazards.

### $\underline{\hbox{Symptoms related to the physical, chemical and toxicological characteristics}}$

InhalationNo specific data.IngestionNo specific data.Skin contactNo specific data.Eye contactNo specific data.

#### Delayed and immediate effects and also chronic effects from short and long term exposure

# Acute toxicity

Not available.

# Irritation/Corrosion

Not available.

### **Sensitization**

Not available.

### Potential chronic health effects

GeneralNo known significant effects or critical hazards.InhalationNo known significant effects or critical hazards.IngestionNo known significant effects or critical hazards.Skin contactNo known significant effects or critical hazards.

Article Number Page: 4/6

25800035 Validation date 26 April 2011

Eye contact

No known significant effects or critical hazards.

Carcinogenicity

No known significant effects or critical hazards.

Mutagenicity

No known significant effects or critical hazards.

Teratogenicity

No known significant effects or critical hazards.

Developmental effects

No known significant effects or critical hazards.

Fertility effects

No known significant effects or critical hazards.

**Chronic toxicity** 

Not available.

Carcinogenicity

Not available.

**Mutagenicity** 

Not available

**Teratogenicity** 

Not available.

Reproductive toxicity

Not available.

Specific target organ toxicity

Not available.

**Aspiration hazard** 

Not available.

Numerical measures of toxicity

Acute toxicity estimates

Not available.

# Section 12. Ecological information

**Ecotoxicity** No known significant effects or critical hazards.

Aquatic and terrestrial toxicity

Not available.

Persistence/degradability

Not available.

**Bioaccumulative potential** 

Not available.

Mobility in soil

 $\textbf{Soil/water partition coefficient (K}_{\text{Oc}}) \qquad \text{Not available}.$ 

Other adverse effects No known significant effects or critical hazards.

# Section 13. Disposal considerations

Disposal methods

The generation of waste should be avoided or minimized wherever possible. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Significant quantities of waste product residues should not be disposed of via the foul sewer but processed in a suitable effluent treatment plant. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.
