There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# Section 4. First aid measures

#### Description of necessary first aid measures

Eye contactNo special recommendations.InhalationNo special recommendations.Skin contactNo special recommendations.IngestionNo special recommendations.

# Most important symptoms/effects, acute and delayed

### Potential acute health effects

Eye contactNo known significant effects or critical hazards.InhalationNo known significant effects or critical hazards.Skin contactNo known significant effects or critical hazards.IngestionNo known significant effects or critical hazards.

#### Over-exposure signs/symptoms

Eye contactNo specific data.InhalationNo specific data.Skin contactNo specific data.IngestionNo specific data.

#### Indication of immediate medical attention and special treatment needed, if necessary

Notes to physicianTreat symptomatically.Specific treatmentsNo specific treatment.

**Protection of first-aiders**No action shall be taken involving any personal risk or without suitable training.

See toxicological information (Section 11)

# Section 5. Fire-fighting measures

#### **Extinguishing media**

Unsuitable extinguishing media None known.

Specific hazards arising from the

chemical

In a fire or if heated, a pressure increase will occur and the container may burst.

Hazardous thermal decomposition

products

No specific data.

Special protective actions for fire-

fighters

No special recommendations.

Special protective equipment for

fire-fighters

No special protection is required.

# Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

**For non-emergency personnel** No special recommendations.

For emergency responders No additional remark.

**Environmental precautions** No special recommendations.

#### Methods and materials for containment and cleaning up

Small spill No special measures are typically indicated.

Large spill No special measures are typically indicated.

### Section 7. Handling and storage

**Precautions for safe handling** None

Conditions for safe storage, including any incompatibilities

No special recommendations.

# Section 8. Exposure controls/personal protection

#### **Control parameters**

#### Occupational exposure limits

None.

Recommended monitoring procedures

Product does not contain relevant quantities of materials with exposure values that have to be

monitored

Appropriate engineering controls

No special ventilation requirements.

Environmental exposure controls

Product does not contain relevant quantities of materials with exposure values that have to be

monitorea

**Individual protection measures** 

**Hygiene measures** Wash hands, f

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking

and using the lavatory and at the end of the working period.

**Eye/face protection** Safety eyewear complying with an approved standard should be used when a risk assessment indicates

this is necessary to avoid exposure to liquid splashes, mists, gases or dusts.

Skin protection

**Hand protection** Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times

when handling chemical products if a risk assessment indicates this is necessary.

**Body protection** Personal protective equipment for the body should be selected based on the task being performed and

the risks involved and should be approved by a specialist before handling this product.

Other skin protection Appropriate footwear and any additional skin protection measures should be selected based on the task

being performed and the risks involved and should be approved by a specialist before handling this

oroduct

**Respiratory protection** Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk

assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
